

SmartHygiene

IT'S ALL ABOUT
HYGIENE

in the Bathroom

Why hygiene is indispensable in WC pans and washbasins?

Bathrooms are one of the most germ-ridden places in our homes. Germs such as Campylobacter, Salmonella, E.Coli, Aspergillus etc. most frequently proliferate in WC pans and washbasins, which is why a hygienic bathroom is vital for you as well as your family's health.

SmartHygiene against germs

The safest way to have a hygienic bathroom is to take precautionary actions. Entire selection of Kale washbasins, WC pans and seats & covers ensure the safety of your family as well as your well-being.

How does SmartHygiene eliminate the germs?

Its silver ion nanoparticles ensure the eradication of germs by damaging cell walls of germs and disrupting their DNA and RNA structure.

Standard Surface

SmartHijyen Surface

Why SmartHygiene?

Available in all Kale washbasins, WC pans* and seats & covers**, nano silver ions prohibit microbial growth, inhibit microbial reproduction on the products and eradicate existing germs.

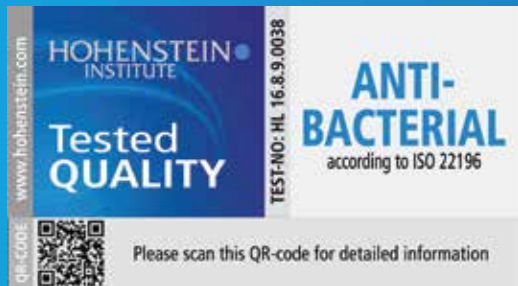

SmartHygiene provides lifelong protection.

SmartHygiene offers easier cleaning with reduced use of cleaning supplies and water, which makes it eco-friendly.

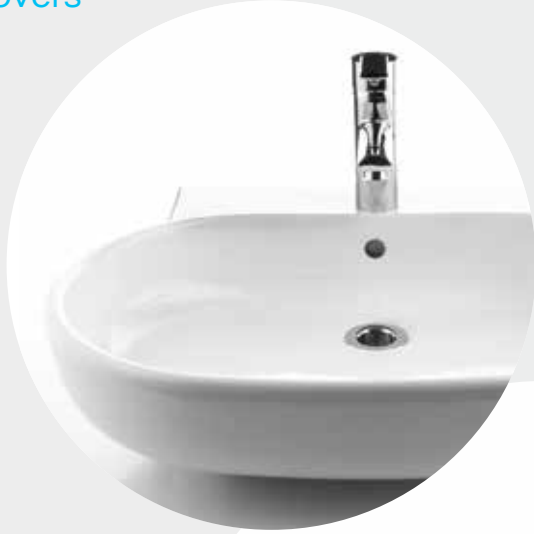

SmartHygiene was tested and approved.

*Tested and approved by Hohenstein Institute in accordance with ISO 22196. Certificate Number: 16.8.9.0038

**Tested and approved by Saniter Gıda - Çevre Bilimi Gözetim ve Mühendislik Hizmetleri Turizm Ticaret Ltd. in accordance with ISO 22196. Report Number: 2009578-16

SmartHygiene
as a standard
in all Kale washbasins,
WC pans and
seats & covers
